Processed food products	Chapters 19–21	Ready-to-cook, snacks and packaged foods

Quality parameters tested

Moisture · Purity and foreign matter · Pesticide residue · Aflatoxin and microbiology · Grain and size grading

Exact values for each parameter are fixed in the sales contract and confirmed by batch test reports before loading. Independent inspection (SGS, Intertek) available.

Packaging

- PP woven, jute, non-woven and BOPP bags from 1 kg to 50 kg
- Jumbo bags (FIBC) for bulk commodities
- Ventilated cartons and crates for fresh produce, with cold-chain shipping
- Retail and private-label packs with bilingual labelling

Documents supplied

Commercial invoice, packing list, certificate of origin, bill of lading or airway bill, test reports, and product-specific certificates (phytosanitary, health, fumigation) where required.
